Empowered, Resilient... World Changing!

Bring Your Own Device (BYOD)

In a **BYOD (Bring Your Own Device)** classroom, you will benefit from digital tools that make organising and sharing work easier than ever. Here's how you can stay organised @WSHS:

Tools for Organising Work	BYOD Expectations
Cloud folders or shared drives	Access and organise work anytime, anywhere (e.g., OneDrive, SharePoint)
Learning Management Systems (LMS)	Streamline assignments, feedback, and track progress (Digital Platforms e.g., QLearn, Teams, OneDrive)
USB drives	Allows portable storage, should only be used when necessary; cloud storage is preferred for portability and ease of access.
Digital portfolios	Showcase and share work in creative, interactive ways (e.g., QLearn, Teams, Canva, Google Sites, OneDrive)
Email or class communication tools	Use email or communication platforms to stay connected with teachers and classmates for updates, questions, or feedback.

What is QLearn and how can it help you?

QLearn is a digital platform that helps you access your schoolwork, stay organised, and connect with teachers and classmates. Here's how it works:

- **Access Your Courses:** View all your lessons, assignments, and resources online—available anytime, anywhere.
- **Learning Modules:** Courses are broken down into easy-to-follow sections, helping you stay on track with your studies.
- **Resources:** Teachers upload Learning Goals, Steps to Success & Success Criteria, readings, discussion boards, worksheets, and videos, so everything you need is in one place.
- **Submit Assignments:** Complete and submit assignments directly on QLearn, with feedback from your teachers.
- **Stay Connected:** Communicate with your teachers and classmates for support and discussions.

QLearn makes learning flexible, organised, and interactive, so you can get the most out of your education!

Benefits of using OneNote Class Notebook for your digital display folder or document wallet:

- **All-in-One Workspace:** You can take notes, add images, record audio, and organise everything in one place.
- **Collaborative:** You can share and work with classmates in the **Collaboration Space** or receive feedback directly from your teacher.
- **Customisable:** You can create a personal, organised space that fits your style (add tables, colour code sections, use bullet points).
- **Always Synced:** Your work is saved automatically and synced across devices, so you can access it anytime.

With BYOD, you will enjoy a flexible, organised, and collaborative learning experience, all while being empowered to manage work on your own device!

Responsible Use Policy

Student Usage of Computers, Internet, Intranet and Email

This document defines the Responsible Use Policy for student use of all internet devices at Woodridge State High School. Its main purpose is to encourage the mature and responsible use through the provision of clear usage guidelines for both the Bring Your Own Device (BYOD) and student usage of computers, internet, intranet and email.

The Queensland Department of Education, Training and Employment deems the following to be

responsible use and behaviour by a student:

- Developing appropriate literacy, communication and information skills
- Authoring text, artwork, audio and visual material for publication on the intranet or internet for educational purposes as supervised and approved by the school
- Conducting general research for school activities and projects
- Use email for appropriate communication to assist with school studies
- Communicating or collaborating with other students, teachers, parents or experts in relation to schoolwork
- Researching and learning through the Department's eLearning environment

The Queensland Department of Education, Training and Employment deems the following to be **irresponsible** use and behaviour by a student:

- Use the IT resources in an unlawful manner
- Download, distribute or publish offensive messages or pictures
- Insult, harass or attack others or use obscene or abusive language
- Deliberately waste orienting and internet resources
- Damage any electronic devices, printers or the network equipment
- Commit plagiarism or violate copyright laws
- Use unsupervised internet chat or send chain letters or Spam email (junk mail)
- Access mobile/cellular data networks during school time which bypasses school filters

In addition to this Woodridge State High School states that:

- Users are responsible for the security, maintenance and integrity of their individually owned devices and their network accounts
- Students using the system must not at any time attempt to access other computer systems, accounts or unauthorised drives or files or access other people's devices without permission
- Students must not record, photograph or film any students or school personnel without the express permission of the individual/s concerned and the supervising teacher
- Students must get permission before copying files from another user. Copying files or passwords belonging to another user without their express permission may constitute plagiarism and/or theft
- Copying of software, information, graphics or other data files may violate copyright laws and students may be subject to prosecution from agencies to enforce such copyrights
- Devices must not be used to display or disseminate material that could cause offense to others

Consequences if Responsible Use Policy is breached align with the Woodridge State High School Student's Code of Conduct.
