Third Party Website Consent

Dear Parent/ Guardian

The use of web based educational resources has risen steadily over the last decade and are increasingly being used by teachers across Queensland to improve student outcomes.

Our school and teachers make decisions about the best technology to meet the needs of students. Sometimes it is beneficial for students to utilise services provided by third party web-based providers.

Woodridge State High School wishes to utilise the third-party web-based service provider/s listed below to aid students learning. For your son/daughter to use the service the teacher will need to register them as a user. This requires student personal information to be disclosed to the provider of the service. In the case of the services outlined below they are private companies hosted on shore in Australia and/or outside of Australia. Outside of Australia means that data that is entered to register for these sites will be stored on servers that are not in Australia and therefore are not bound by Queensland's privacy laws. Registration may include disclosing the following information about your student:

- Name
- Age

- Class Teacher
- Student ID

- Year Group
- Student email

We need your permission for the registration and use of these sites by your son/daughter.

Before you complete the consent form it is important that you understand the reasons that these websites collect this information, what will be done with it, who else may have access and where the data is stored. This information can be found in the hyperlinks below referring to each website's terms and conditions and/or privacy policy.

Please read these and ensure that you understand the implications of using the service before giving your consent. If you have any queries regarding the storage of information, please feel free to contact the Head of Technologies, Katrina Zagaglioni on knzag0@eq.edu.au.

NOTE: it is not compulsory for you to provide this consent – if you decide not to provide consent, your student will not have access to the sites where permission has not been provided.

Privacy Notice

The Department of Education and Training is collecting your personal information on this form in order to obtain consent for disclosure of a student's personal information to facilitate registration and use of third-party web-based software identified on this form. The information will be used and disclosed by authorised school employees for the purposes outlined on this form.

Student personal information collected on this may also be used or disclosed to third parties where authorised or required by law. This information will be stored securely. If you wish to access or correct any of the personal student information on this form or discuss how it has been dealt with, please contact your student's school in the first instance.
